

'ROUND
'N'
'ROUND

For some obscure reason there has been a run on razor and razor blade salesmen today (Monday).

Never did happen to notice a house-to-house salesman for that particular article before but there have been millions—well, thousands—of them out today.

Gosh, Mr. and Mrs. J. R. Hoblett of 1408 Twenty-third street have a new baby that weighs only two pounds and five ounces.

The little girl is starting her life in an incubator which has always seemed to me living in the lap of luxury.

No worry about heat or cold, meals on time, care and attention of every sort.

It's too bad that a human's only experience of such a blissful existence should be when he was to young to enjoy it.

Which brings to mind the newsreel pictures of a man who had himself buried during the hot months of the year.

He is down six feet in a comfy grave and has for communication with the ordinary world, a large tube.

He seems happy enough, gets lots of publicity, has a manager and everything.

But it would sure be just too bad for him if they forgot to send down his food.

Judging from Monday's temperature Richmond is headed for the heat that Chicago is losing.

But we fortunate residents always know that we have the bay, its cooling breezes and the opportunity to go out and sit in the water up to our necks if necessary.

PANEL DRAWN IN TRIAL OF CULT MURDER

Forty Richmond residents have been summoned on the panel for the trial of seven Filipinos in Martinez this week.

What is believed to be the largest panel in this county and one of the largest in state law history is the list of ninety-five names for the murder trial.

Those from Richmond include: Joe Perasso, Francis Noriglia, Jerry Maloney, Thomas Kenney, A. Hart, Hortense Sigut, Thomas Jeffries, Mrs. Amy B. Williams, Mrs. Cassie Klein, Mrs. J. G. Johnson, John Kucen, O. C. Gasper, Bertha Smedley, Mrs. Jennie Brown, Lottie Elliott.

Max Henry, Ernest Sowell, William Berk, Bob Stinnett, Mrs. Winifred Burgart, Louis Kiraly, Mrs. Melissa Kinstrey, Louis Toffoli, Mrs. Mary Pace, Adeline Stender, Henry C. Soito, Grace E. Thompson, Ethel Hause, Charles Edward Dawe.

Mrs. Reva Carey, Norma Armand, Mrs. John S. Bennett, Mrs. George Imbach, John Kenny, George W. Degnan, Frank Marcollo, George A. Ross, K. C. Perkins, Mrs. Anna B. Bowen, Jettie Woodworth and Arthur Howell.

The indicted seven were arrested on April 1, after Pablo Bustamante, organizer of the secret society in California and former Manila detective, informed Sheriff James P. Hoey, of the death of a woman on Jersey Island, at the northeastern boundary of Contra Costa county.

Mrs. Navarro, an attractive Stockton Filipino, was condemned to death November 20 by members of Caballeros de Dimas, Alang, Inc., secret society, for allegedly violating the cult's code.

Bustamante, fearing for his own life, brought the young woman's burial to the attention of authorities. Considered the state's star witness, Bustamante has been furnished protection by Sheriff Veale.

Those indicted for the murder are Mr. and Mrs. Leon Kintanella, Mrs. Albert Asis, Mrs. Marian Galvez, Eustacio Codog, Vicente Kang and Ramon Costello. The latter three are accused of having dug the grave in which Mrs. Navarro was buried.

WEATHER

Romance On Shoals

THE "perfect romance" of Douglas Fairbanks and Mary Pickford, America's most beloved film couple, pictured above on a recent trip to San Francisco, is reportedly nearing divorce courts. With Fairbanks in England, "Mary" issued a statement from Hollywood confirming rumors that a divorce was contemplated.

Screen's Happiest Couple Silent on Separation Rumors

LOS ANGELES, July 3.—Mary and Doug, hailed as the "screen's happiest couple" for many years, were equally silent tonight after the startling intimation that they were considering a separation or possibly a divorce.

Separated by thousands of miles, Miss Pickford, "somewhere in Southern California," and Fairbanks in London, all efforts to obtain interviews failed.

"Mary" in Hiding
Miss Pickford was not at the palatial estate, "Pickfair," which has been the residence of the famous film couple since their marriage thirteen years ago, and all efforts to locate her had failed.

Reports persisted that she had gone into seclusion at the Santa Monica Beach home of her friend, Marion Davies, but attempts to reach there also were unavailable.

Doug Dodges Press
Fairbanks, returning to London after a week-end in the country, dodged reporters and flatly refused to comment.

From friends of Miss Pickford it was learned that she had not heard from her husband for several days and that she does not know whether he plans to return to Hollywood in the near future.

Those close to her said they did not believe any legal steps had been taken in the marital rift and that no arrangement had been made for a property settlement.

Wealthiest Couple
Long regarded by the public as cinema's "happiest couple," Mary and Doug actually are listed as the wealthiest.

A short time ago Miss Pickford inherited \$1,144,972 from her mother, Mrs. Charlotte Smith, who died in Beverly Hills in 1929.

In addition to heavy stock and real estate holdings, Mary and her husband reportedly own jointly the United Artists studio property.

In Hollywood opinion seemed to be almost unanimous that incompatibility of interests was responsible for shattering the romance of the couple.

Tired of Films
Fairbanks, they said, tired of the glitter and society of the film capital and turned his face across the seas to the association of royalty and titles.

For Mary, they said, domination in her own right of the land of motion pictures held an attraction that could not be denied.

The prospect of a divorce action being instituted immediately was not believed likely in film circles, certain friends and associates of Miss Pickford saying they believed "America's sweet heart" would let Fairbanks say when he wishes her to give him a divorce.

FILM COWBOY HURT IN AIR RACE ACCIDENT

ADJOURNMENT OF ECONOMIC SESSION NEAR

LONDON, July 3.—UP—Immediate adjournment of the world economic conference—split wide-open by President Roosevelt's firm message rejecting gold bloc nations' demands for currency stabilization—appeared probable tonight.

The United States delegation, however, decided vigorously to oppose adjournment at tomorrow's meeting of the bureau, for steering committee, when the future of the parity will be decided.

Members stoutly declared they were determined not to take the blame for wrecking the conference.

The delegation members said they were considering advancing a new program of world price raising for consideration by the parity, although the details have not been drawn.

Refuses To Act
President Roosevelt, in a telegram to the conference read by Secretary of State Cordell Hull, flatly declared he was not prepared to stabilize the dollar at the present uncertain level with regard to other currencies.

The President's message left the delegates agitated at its blunt language. He chided them in sharp phrases for what he denounced as attempts to divert the conference from the broad economic objectives.

He made it clear that when the majority of nations balance their budgets and live within their means it will be the time to discuss monetary reforms.

Roosevelt Speaks
"Our broad purpose is the permanent stabilization of every nation's currency," the President (Continued on page 4)

Damages Sought After Drowning Of Jr. Engineer

SEATTLE, July 3.—UP—Damages of \$35,000 for the death of Carl W. Ekberg, junior engineer, who was drowned when the steamship President Madison capsized, were sought in a suit filed in superior court today.

American Mail Line Ltd., holders of the ship, are defendants.

Ival Lundquist, administrator of Ekberg's estate, asks damages of \$25,000 for loss of Ekberg's earnings power in behalf of his parents and \$10,000 for suffering prior to his death. The suit contends Ekberg was struck on the head by a fall prior to drowning.

The President Madison capsized at Todd Dry Dock here March 24. Ekberg was the only casualty.

Janitors Seeking Old-Time Salaries

MARTINEZ, July 3.—A petition from the four janitors at the county hospital asking that their salaries be restored to \$75 monthly was received today by the board of supervisors.

They are now receiving \$60 monthly and found.

The petition recites that the janitors are family-men and also lists their costs of sustenance. It will receive action on July 17.

Misinformation NOT A WORD TRUE

This is not a day. July 4 was stricken entirely off the calendar this year in Richmond when it was decided to combine Flag Day and the Fourth in the interests of economy.

Therefore there is to be no traffic on the streets, no postmen, no noise.

The proper way to spend the time from midnight until midnight is to take a bromide and sleep the hours away.

It wouldn't hurt most of us to have 24 hours of sleep anyway.

Drastic Drops in Tax Rolls of City-County Revealed in Reports

Independence Day

Throughout the nation, Independence Day, recognized by the majority as the most significant national holiday, will be celebrated today, marking the 157th birthday of our nation.

According to a definition by the Standard dictionary, independence means freedom of dependence upon others, a support; a spirit of self reliance.

Looking back across the generations it is curious to see how many and how varied have been man's struggles for freedom, how easily he has relinquished his most obvious rights, how confused has been his sense of justice and how persistently he has ignored the basis of all liberty which, if once won, would have opened all the doors to freedom and independence.

The keynote to our failure is the limited view we have of liberty, the selfishness with which we have confined our efforts to obtaining freedom for our nation, our own people, our own relatives, our own families, with no thought for the rest of humanity.

When we have done our bit no matter how small, to free our fellow man from the chains which bind him, be they chains of poverty, sickness, dependency and so on down the list, then we are helping the world to be more independent and we may celebrate a new and better Independence Day.

Driver Held On Hit-Run Charge

PRESNO, July 3.—UP—Police today held Joe Nazario, 22, of Kerman, Cal., as an alleged hit-run driver although relatives of Mrs. Jennie Bizzoff, 65, who was killed, refused to file charges.

Officers said that when Nazario, a distant relative of the victim, allegedly struck her he was driving without lights on his automobile and was intoxicated.

Cowell Plant Is Awarded Contract On Bridge Cement

W. H. George, manager of the Cowell Cement Company, announced yesterday afternoon that his company has secured a contract to supply 450,000 barrels of cement for the Oakland-San Francisco bay bridge.

He said that production will be started in about six weeks on the first part of the contract.

The greater portion of the cement is to be supplied next year.

REAPER CALLS AGED LEADER OF ARGENTINE

BUENOS AIRES, July 3.—UP—Hippolyto Irigoyen, former president and a major figure in Argentine politics for many years, died here tonight after a long illness. He was 85 years old.

Cancer of the throat ended the career of the atomist figure in Argentine politics.

"I am going, doctor," Irigoyen whispered shortly before he died. "I never intended to harm anyone. I was spared so long because the country needed me."

The most powerful man in Argentine, twice president, died virtually a prisoner, a status which had been his since Sept. 6, 1930, when he stepped away his office to the vice president in the face of a rising revolutionary tide.

Shorn of his power and already weakened by health, the government nevertheless kept a close watch on him and the radical party of which he had been dictator.

Announcement of his death was made from the balcony of Irigoyen's home to a large crowd of friends and supporters who had been waiting for word of his condition.

Irigoyen was a power in the Argentine party at the age of 23. He was a provincial deputy at 29 and a federal deputy at 30, suddenly he disappeared from public life to become a bridge toll collector and a teacher in primary schools.

He then became sheriff of Buenos Aires province. Eight years later he was back in the thick of the political fight and led the successful revolt in 1916.

Another revolt failed in 1925, but the secret balloting reform Irigoyen sought finally was adopted and in 1916 he was elected president. He was elected a second time in 1928.

HOOT GIBSON HAS NARROW ESCAPE AT LOS ANGELES

MUNICIPAL AIRPORT, Los Angeles, July 3.—UP—Hoot Gibson, hero of many a hazardous motion picture exploit, survived another brush with death today when his speeding plane crashed at the National air races, during a match contest with his rival actor, Ken Maynard.

Hurled from the wreckage of his plane, Gibson was rushed across the field to reassure an anxious crowd of 25,000 spectators, many of whom believed he had been killed.

The crash occurred as the two planes hurtled toward the second pylon, some three kilometers from the reviewing stands.

Maynard took the lead rounding the first pylon and Gibson, anxious to regain the advantage, put on a burst of speed.

His ship roaring at 200 miles an hour, Gibson went into the turn at a sharp angle, although he was less than 100 feet from the ground.

The plane began a steep climb and before the film cowboy could right it, the nose dipped earthward.

Comes Up Smiling
Gibson crashed at full speed demolishing the plane. Field attendants were amazed to see the smiling actor extricate himself, cut on the cheek his only injury.

Maynard, who at first was unaware that Gibson crashed, saw the crowd and then abandoned the 25 mile race. He landed near Gibson's plane and helped the latter into an automobile.

The two were racing for a trophy put up by Will Rogers with Harold Lloyd as referee of the contest.

The race immediately following, a 30 mile event for planes of 375 cubic inch piston displacement or less, was won by Lee Miles of Los Angeles with an average speed of 160.891 miles an hour.

George Hague, a consistent performer in this year's races, was second; J. Wittman, Oshkosh, Wis., third, and Art Chester, Joliet, Ill., fourth.

Other Races
Roy Minor of Los Angeles won a fifty lap event for planes with motors of 550 cubic inch or less displacement with an average speed of 193.930 miles an hour. He beat out his rival, Ray Moore of Alameda, who has dualed with minor in almost every race.

Gordon Israel, Overland, Mo., was third, George Hague of Los Angeles fourth, and Lee Miles, Los Angeles, fifth. Lee Schoenhair, San Francisco, did not finish.

Lieutenant Colonel Roscoe Turner, winner of the Bendix transcontinental speed dash which opened the races Saturday, failed today in his attempt to best the land speed record of 234.94 miles an hour established last year by Jimmy Doolittle.

Flying the low wing monoplane in which he set a new cross country mark of eleven hours thirty minutes in Saturday's race, Turner could do no better than a 280 mile an hour average.

His race against time was four times around the course, two turns with the wind and two against—the same conditions under which Doolittle's mark was set.

Mrs. John Noel of Nicholl avenue, West Side, is visiting members of her family in Oregon. She is accompanied by her son and will be away about two months.

WEBB PASSES ON PROBLEM OF J. F. HOEY

MARTINEZ, July 3.—When the average attendance is ten or more, it is mandatory under the law upon boards of trustees to make provisions for maintenance of kindergartens, according to Attorney General U. S. Webb.

School districts must discontinue kindergartens when the average daily attendance is less than ten, he also said.

Webb handed down his opinion on request of District Attorney James P. Hoey following receipt by Hoey of an inquiry from the Walnut Creek school board of trustees. The opinion was asked to determine definitely whether the law makes continuance of a kindergarten obligatory and is a query that has been made by many boards of trustees throughout the state, who have considered abolishment as a means of economy.

Webb's ruling held that kindergartens may be consolidated when there is more than one maintained in a school district. Richmond is the only community in the county that the latter phase of the ruling might effect.

Walnut Creek had an enrollment of 20 in the kindergarten last year and under Webb's construction of the law the kindergarten will have to be maintained.

TSK! TSK!
NAMPA, Ida., July 3.—A young woman tore off her clothing when she became enraged at an automobile she tried to "wave down" on the North Nampa highway recently, failed to stop, Clarence Graybill, reported to police.

MOTOR DEATH RATE SHOCKING

A year ago, the lack of a few links of chain, an invisible tail light, slight mechanical defects, small points of neglect, in judgment these apparently trifling things, added to the losses of property, play major roles in taking more lives in the United States than on any other continent.

With all returns not yet coming to the complete picture, some states, the 1932 motor death toll from motor vehicle accidents in the United States was conservatively set at 20,443 men, women and children in 519 accidental or negligent deaths.

The total economic loss from all accidents has been estimated at approximately \$1,000,000,000. That equipment failures, broken steering gear, etc., which caused accidents during 1932 played a large part in this drama of death and destruction.

Clutchless drivers, still outwreak in deadliness all other public enemies. They accounted for approximately 40 percent of the 1932 mishaps and fatalities, speeding, hogging the road, disregarding signals, failing to signal and similar offenses raised the accident and death totals.

Sandy Should Be Very Fond Of Lilacs Now

SAN FRANCISCO, July 3.—Dog days are generally said to come in August or an equally hot month.

But Sandy certainly had his yesterday.

Very few pupes or very few living creatures of any kind can make a seven-story leap into space and land right side up with nothing worse than a scratch to show for it.

Visits Bay Region

With his master and mistress, Mr. and Mrs. William Joyce of Los Angeles, the lively little wire-haired terrier arrived yesterday morning from Los Angeles for a few days' stay at an apartment on Chestnut street.

As the Joys had driven most of the night, the dog was frantic for a romp after his confinement in the automobile.

So the Joys took him to the roof of the seven-story apartment building to stretch his legs.

The dog scampered about joyously, then with a strong leap vaulted the three-foot parapet and hurtled into space.

Oh Golly!

The two leaped terrified over the edge to learn Sandy's fate and were amazed to see him drop lightly from the branches of a huge old Elm bush in an adjoining yard and run under the Joys' parked car.

Harness High-Dive

A moment later he was clasped in the arms of his frightened young mistress and whirled off to a veterinarian. Two slight scratches on his chest were the extent of his injuries. The lucky dog!

Sandy comes of a famous line of thoroughbreds and is valued by his owners at \$500.

Shure, and Plenty Of Luck For Him

COLUSA, Calif., July 3.—J. L. Davis should be the luckiest man in the world. Second year ago he found a plant producing four-foot clovers.

He cultivated the growth and now has an area of about 200 square feet.

Skinny Coyote Is Bloom-Lover

PORTLAND, Ore., July 3.—Neighbors of Robert E. London were astonished recently to see a gaunt looking coyote meandering through London's garden.

The animal was captured, made its escape and roamed the streets for days.

Buys Umbrella With Food Coin

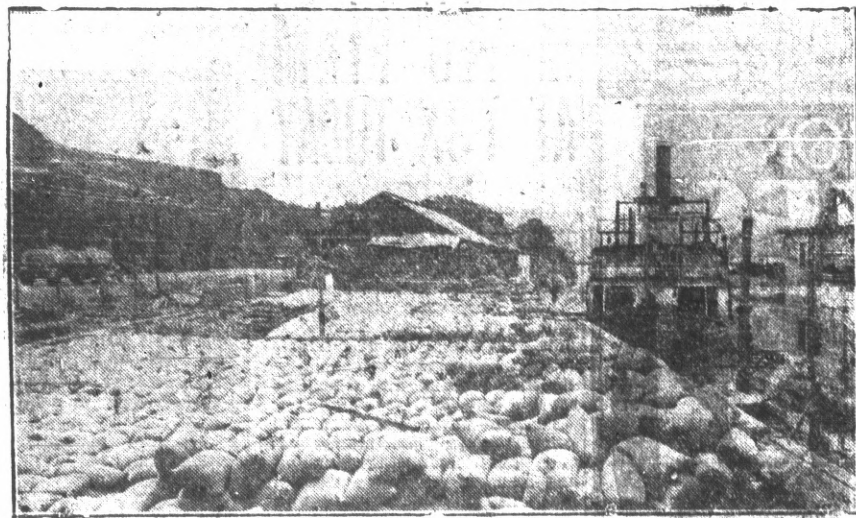

STOCKTON, Calif., July 3.—A true case of saving up for a rainy day was revealed here. Pete Carty 71, was arrested on a vagrancy charge.

Judge Cecil S. Johnson dismissed the charge and gave the man a dollar to buy food. Carty bought an umbrella with the money.

ture the lively flavor of their first partnership.

JUST WHEN it seemed that there would be no new slang, a name has begun to be tossed around for rubber checks: "waterproofs."

Happy Days Are Here Again

WITH the price of grain soaring and demand increasing, the wheat farmers of the United States seem at last to be on the very edge of the depression. Pictured are thousands of bushels of wheat awaiting shipment to China from an Oregon wharf.

Night Rider

Wm. J. Randau, New York news agency executive, changes planes at Los Angeles United Airport on the return lap of a transcontinental trip made in record time.

With him are Pilot Avery Black and Jack London (No, sah; not de author!).

Randau, Stanford graduate and himself a wartime flyer, is now business manager of the United Press Associations.

Volcanic Park is Ideal for Camping

Lassen volcanic national park is still primarily a camper's Park, states the touring department of the National Automobile Club.

Large resorts have not yet been authorized within its bounds. There are numerous resorts close by, but none so convenient as the park.

The opportunity the Park offers for rest and relaxation in quiet surroundings, beneath the protecting shadow of the edge of a cone, is a feature that has not been duplicated elsewhere.

Three tracts have been set aside for camping on the Park Loop highway. These are the most desirable locations and camping is restricted to these areas. Of the three, Summit Lake is considered the best all-around camp ground. It is centrally located, plenty of firewood and good water is available. It is at the edge of a lake.

Kings Creek camp ground is closer to Lassen Park and the southwest. Golden Gate camp ground is higher in elevation than the other two camp grounds, therefore, the night is colder.

Summit Lake has the advantage of being located near a good fishing lake.

Campers are warned that night is chilly in the Park and plenty of clothing is necessary.

There are no cabins in the park. While he was busy keeping the fire alive, they picked his pocket.

Convicts Pledged To Keep Lives in Prison to 'Seives

MANY KILLED IN HURRICANE IN WEST CUBA

PIJAR DEL RIO, Cuba, July 3.—UP—A hurricane of terrific intensity swept over Pinar Del Rio province in western Cuba today causing heavy damage to the famous Vuelta Abajo tobacco fields but apparently taking only a light toll of human life.

Three persons were killed at Port Galeo on the south coast, which bore the brunt of the storm, and a man and a woman were reported to have been killed near Rio Seco. Six persons were known to have been seriously injured.

The hurricane, which started off the coast of Venezuela, were 17 persons killed, struck the southern coast of Pinar Del Rio province last night.

It moved slowly across the island demolishing hundreds of flimsily constructed buildings and passed into the Gulf of Mexico in a northerly direction.

Metereologists said the storm would miss the coast of Florida. It contained its present course. So great was the velocity of the hurricane here that the wind measuring instrument at the weather bureau was broken.

Government authorities were particularly concerned over the fate of the low lying fishing village of La Coloma on the south coast. All attempts to reach La Coloma, which has a population of 500, were unavailing as the road to the village was several feet under water.

Reports indicate that damage to the Vuelta Abajo tobacco fields might be enormous. Almost all the better class tobacco leaf use a high priced cigars is grown in this province.

Pinar Del Rio city, which has a population of 11,000 was badly damaged by the storm.

The General Electric building here was seriously damaged. The Pinar Del Rio family members only escaped injury when the building was badly tilted by the wind and collapsed on their heads.

Celebrated commercial lines here reported an absence of direct communication with the storm area. The lines reported that the storm was passing through the area.

Joe Bergard of Rockvale was arrested by Sheriff Van Buren as the other alleged participant in the duel.

TO CHECK TRAINS
SALT LAKE CITY, July 3.—When Tim Murphy and M. E. Christensen, residing near a railroad line, repeatedly complained to Chief of Police W. L. Patten that trains were passing their homes at a great speed, shaking surrounding buildings, they were named special officers with authority to enforce speed laws.

Cabin Circle Arranging For Banquet

Mrs. Julia Linnell, Mrs. Elizabeth Lassele and Mrs. Mathilda Glacier are to arrange a banquet tomorrow evening for Los Chin circle, neighbors of Woodcraft.

Mrs. Laura Beddoes, guardian neighbor, will conduct the session in Odd Fellows hall.

There will be an all-day session of the "Thimble Club" in the hall banquet room. Mrs. Emma Austin will preside and with Miss Anna Booth will serve the luncheon.

Onetah Tribe Has Brief Session

Due to the holiday, only a brief meeting was held last evening by Onetah tribe of Indian. John Colombo acted as sachem for John Moore who is vacationing.

Plans were furthered for the raising of chiefs which will be held on July 24. Onetah council, Degree of Pocahontas, will install officers in joint ceremonies.

Anne Denton is Party Hostess

The seventh birthday of Anne Denton was made the occasion for a celebration given by her mother, Mrs. H. E. Denton of 137 Thirtieth street.

A profusion of flowers decorated the dining room and a large birthday cake with seven candles occupied the place of honor. Each youngster received a basket of candies and favors.

The little guests included: Clark Rowe, Florence Hill, Doris Hill, Wayne Westover, Lorraine Austin, Joyce Gilbert, Betty Lou Adolf, Edward Dale Pittman, Frances Denton, Billy Connolly, Eleanor Linscheid, Janice Scribner, and Howard Hubbard.

Mr. and Mrs. H. C. Cook of 1350 Wright avenue and Mrs. Cook's son, Raymond Kelly, are vacationing in Lake county.

Local People Enjoy Outing At Bonnie Doon

A party including Mr. and Mrs. Carl Stender, Mr. and Mrs. C. G. Rhodes, Mr. and Mrs. Harvey Stender, Misses Daisy Cona and Esther Rhodes and F. E. Judkins spent an enjoyable weekend. They visited the Lester Rhodes ranch near Bonnie Doon.

One of the features of the outing was the trout breakfast provided by the fishing skill of Lawrence Rhodes and Carl and Harvey Stender.

John DeSouzas Are Given Charivari

The recent marriage of Mr. and Mrs. John DeSouza, 614 Fourth street, was made the motif recently of a surprise charivari at their home.

A large gathering of friends were present to enjoy a banquet, game, and dancing.

Those in attendance included: Mr. and Mrs. A. P. Silva, and son, Mr. and Mrs. Henry Vanasco, Mr. and Mrs. M. P. Dutra, Mr. and Mrs. J. P. Dutra, Mr. and Mrs. J. Rich, all of Martinez.

Mr. and Mrs. Rosa, Mr. and Mrs. Rafael, Mr. and Mrs. Reoyo, Mr. and Mrs. Perria and M. Morris, of San Pablo, Mr. and Mrs. B. Baker, and son Frank of San Francisco.

Mr. and Mrs. J. J. Agaveo of Petaluma, Mrs. J. Freitas, Mr. and Mrs. J. Vargas, Mr. and Mrs. J. Neri, Mr. and Mrs. C. Ingraham, Mrs. Brand, M. Silva, J. Silva, A. Dias, Mr. Williams and son of Albany, Mr. and Mrs. A. J. Freitas, Mrs. J. P. under Mr. and Mrs. P. Farnado of Oakland and Mrs. Piva of Berkeley.

Mr. and Mrs. J. R. Hoblett of 1408 Twenty-third street are the parents of a baby daughter, Doris Margaret. The mother and child are under the care of Dr. L. A. Hedges.

A marriage license was taken out in Reno yesterday by Henry M. Kroger of Richmond and Katrina Andrusen of Albany.

Royal Neighbors Have Social Eve

After a short business meeting, members of Maple camp, Royal Neighbors of America, enjoyed a social time and a delicious supper.

Mrs. Pansy Spring, oracle, conducted the business session and the July social committee headed by Maude Phillips was in charge of the remainder of the evening.

The banquet tables in Memorial hall were attractively decorated in the Independence Day spirit.

A marriage license was taken out in Reno yesterday by Henry M. Kroger of Richmond and Katrina Andrusen of Albany.

INDEPENDENCE DAY FETE AT LAKE MERRITT

OAKLAND, July 3.—Motor boat races, band concerts, literary exercises and a grand Lake Merritt fireworks display will be features of Oakland's big municipal Fourth of July celebration tomorrow.

Amphibane stunts on Lake Merritt, between the eight outboard motor boat races in which 75 crafts will participate, will be an added feature of the celebration, according to Elmer Zollman, chairman of the committee appointed by the city.

After a preliminary warm-up the first set of fast races will begin competition at 12:30.

The municipal band under Herman Tannen, Jr., will begin a concert of patriotic selections at the Lakeside Park band stand at 2:30. The music will be amplified by loud speakers near the stand, and it will also be broadcast for radio.

After the band concert, entertainment will be furnished by the loud speakers at the stand.

Many spectacular fireworks displays have been constructed for the fireworks which will begin on the shores of Lake Merritt at 8:45 in the evening.

One place will depict a parade on the front line trenches, and another will be a special "dive" contest display. There will be also two set pieces, in addition to a large variety of other fireworks.

Friend To Speak

At 10 o'clock will be the last event of the day, the broadcasting of a patriotic speech by William Nat. Baird, postmaster of Oakland over Radio station KLN.

Officials of the beach resorts declare that if the weather is fairly warm they expect record crowds.

Mr. and Mrs. J. R. Hoblett of 1408 Twenty-third street are the parents of a baby daughter, Doris Margaret. The mother and child are under the care of Dr. L. A. Hedges.

A marriage license was taken out in Reno yesterday by Henry M. Kroger of Richmond and Katrina Andrusen of Albany.

Don't Take Pills For Constipation

Ordinary pills taken to relieve constipation merely force a movement of the bowels without making the liver dispose its excess bile. That's why the trouble returns in a day or two, and you have to swallow more pills.

What every constipated person needs is a good liver tonic like Plantax to thoroughly cleanse the digestive system of all foul secretions and at the same time restore the torpid, lazy liver to proper working order.

When this is done you will no longer have frequent headaches, coated tongue, frequent belching, constipation, bilious attacks or other symptoms of constipation and liver trouble.

Plantax is made from the juices of harmless medicinal plants—Nature's own remedies—that act in a mild, easy way without "roughing" or irritating the organs. Try it tonight. Large bottle \$1 at any good drug store.

Eastbay National Guard Ready to Entrain for Training Camp

Eastbay units of the California National Guard will leave for the 15th Infantry training camp at San Luis Obispo next Saturday night, retaining three Sunday morning.

Major-General David P. Rows, commanding the division, will be camp commander, assisted in camp administration by his staff.

Oakland's 15th Infantry, commanded by Colonel Wayne R. Allen, is prepared for the fifteen-day training period.

Units of this regiment, which has been in existence since the days of the Civil War, are stationed in Oakland, Berkeley, Alameda, Hayward and San Jose, with the third battalion in San Francisco.

The First Battalion, First 15th Infantry, Oakland, commanded by Major Harmon Kelsey, will be in camp at the same time as the 15th Infantry, joining other units of the regiment at San Luis Obispo.

General Harrows announced that the 18th Infantry, composed of Sacramento Valley units, and commanded by Colonel Charles E. Reed will attend the first camp completing the 79th Infantry brigade, commanded by Brigadier-General Wallace A. Mason of Sacramento.

While in camp the troops will undergo training daily with entertainment provided within the camp area during the evening featuring motion pictures, boxing, sports and band concerts.

Major-General David P. Rows, commanding the division, will be camp commander, assisted in camp administration by his staff.

GENERAL L. BROWN, U. S. A., who as chief of a my engineers is in charge of the government power plant at Muscle Shoals.

London, had a surprise in store for him. The case contained two photographs of engineers.

MORATORIUM AIDS TAX PAY

PITTSBURGH, July 3.—Extension of time granted by a moratorium passed by the city council aided materially in reducing the estimated tax delinquencies for the past fiscal year.

While the delinquency was expected to run between 20 and 25 percent, the 56 day postponement served to bring the total amount of defaulted payments to only 16 percent, according to Mrs. Betty Ostlund, deputy city tax collector.

Approximately \$75,000 of the \$91,238 tax roll for real estate and personal property has already been collected, and additional payments are expected during the next few days.

During the previous fiscal year \$89,724 of a tax roll for \$100,656 was collected, the \$10,932 uncollected at the time of delinquency amounting to about 15 percent. The delinquency for 1932-31 totaled seven percent.

Thomas Downey of 230 Nevins avenue is visiting his home. He is a member of the Civilian Conservation corps stationed near Georgetown.

BEFORE ANOTHER MONTH GOES BY

Take advantage of the SPECIAL DISCOUNT PRICES on

Natural Gas HEATING

PURCHASE PAYMENTS DEFERRED **PAY LATER** UNTIL OCTOBER FIRST

IT is just human to let things go to the last minute sometimes. But don't do that about your house heating for the coming winter season.

Now, during the summer, is the best time of all to settle your house heating problem by having Natural Gas heating installed. You save money because this month, for example, Special Discount Prices are in effect for all types of gas heating equipment. These are substantial discounts on equipment prices that are today at rock bottom.

The installation, too, can be made immediately, with no disappointing delays that

are so likely to occur this fall. And since you have little daily need for heating now, the installation can be made without inconvenience to your household.

In this unique summer sales plan for gas heating equipment, a small down payment gives immediate installation. You pay nothing more until October first. Surely these purchase terms are exceptionally easy. Why not decide to adopt this permanently satisfying type of house heating right now? Phone to

the local office of this company or consult with your local gas appliance dealer.

Your Good HEALTH

By CLAUD N. CHRISMAN, M.D.

Diet Aids in Control of Weakness of Joints or Bones

WE like to see folks walk with a straight, forward, upright gait. Likewise when they halt in walking or hold themselves with a lack of balance, we wonder if there isn't trouble somewhere.

DR. CHRISMAN

Family movement always be sure just where the interference or lack is to be found. We can be sure of this one thing, when a person develops what we call a limp or holds himself in an unnatural way, there is a change taking place somewhere. A joint is yielding its service in some portion or the material in bone structure somewhere in the body is weakening. There should be no delay in seeking a skilled doctor's opinion.

THE early stage of joint or bone weakness show much possibility of recovery. A change of diet, rest in bed, proper medicines if indicated, may set the matter right in short order. On the other hand, any considerable delay in such cases will make the chance of complete recovery very difficult if not impossible. The trained eye will note many details in the imperfect gait, that may escape even the senses of the patient himself. Does the limp occur at the beginning of a step or at the end? If at the beginning, there must be some contraction of muscle or deficiency of bone material that has caused a slight shortening of the limb.

IF the limp comes at the end of the step, there are a number of excuses such as pain in the joint, soreness of the muscles or flesh. Anything that makes one hunch as the mechanism performs the act of walking will produce a limp but it may be entirely temporary and mean very little beyond a momentary distress. Thus the next note to be made should concern the rhythm, or regularity of the imperfect step, which indicates the variation in the determining cause.

STILL another phase is in the fact that a limp is sometimes intermittent which is frequently the case in beginning hip disease. There will be periods when the step becomes quite normal, the step becomes quite normal, step or some slight injury. We are all familiar with the inclination to hobble a little upon first getting on our feet in the morning. The same tendency is noticeable after a long period of sitting in one position. This tendency of cramped or unused muscles to be stiff for a brief period is very natural. The worst thing we can do for the time is to hobble about in an effort to favor the joints and muscles that are reluctant to go to work again.

A GOOD stretching and flexing of the stubborn ligaments is the best thing for them. If they are really ailing, it will be time to apply remedies when exercise seems too uncomfortable. The tendency to limp which calls for most attention is found in young children. Any continued limping should be carefully examined and the required remedies applied before the growing bones are permanently affected. An affection of the spinal joints will likely show first in the posture, though the tendency to walk slightly sideways is soon apparent. In the same way, a child will begin to show a circling movement with one leg before any shortage from knee or hip disease will be detected.

AT the first suspicion of bone or joint trouble, the diet must be fortified with bone building materials and a rigid program of rest periods must be observed.

MODES AND MANNERS

QUESTION: "Are service plates ever used to eat from directly?"—W. B. D.

ANSWER: Food placed on a service plate is always set on china of its own. The service plate should be on the table when the guests come into the room. It must always be removed before placing the main course.

WISE MOTHER AIDS DAUGHTER PICK MAKE-UP

By JACQUELINE HUNT

JUNE again—lovely, glamorous June, with its annual crop of sweet girl graduates, brides and bridesmaids, each one of you eager to be as starchy and beautiful as a Roman.

MISS HUNT: You should be proud of your daughter's frankness and her pride in her personal appearance. Her charm, her beauty and her success in business or in life later on will depend to a large extent on the hands that she forms now. Of course, bad taste in the use of cosmetics is to be deplored, just as it is in the improper choice of a costume. But your daughter doesn't need scolding. She needs encouraging and guiding.

The old idea that the early use of cosmetics would ruin the complexion and that rouge and lipstick mark a woman as vulgar and improper, is rapidly disappearing. The widely advertised brands of cosmetics manufactured are of such excellent quality that they will not harm the complexion of the young girl if they are correctly applied and if the skin is given one or two thorough cleanings daily.

You will be pleased to know that many of the creams and powders, as well as the lipsticks and rouges, these days are especially compounded to meet the needs of a youthful complexion. The creams are soft, velvety and quick melting, tonics are mild and soothing and cooling in action. Rouge and lipstick are soft and creamy in texture and their colors capture the elusive naturalness of glowing youth.

The idea that the use of lipstick and rouge marks a woman as common and "not quite nice" is also passing away, thanks to the new art of applying cosmetics. The trick about applying make-up now is to achieve an effect of naturalness—you do not know there are there, you only realize how lovely and youthful they are. Foundation creams and powders are made in tones that match the skin, and when they are correctly applied they will enhance every good feature and minimize the defects of nature. On the other hand, if they are carelessly or unknowingly used, the wrong powder shades and wrong colors of rouge and lipstick too heavily applied can make the loveliest features harsh and incongruous.

If you have opposed your daughter's use of cosmetics, now is the time to "about face." It is not long until graduation exercises. Join your daughter in a little experimenting just as one girl with another. Teach her how to use her cosmetics to obtain subtle effects of loveliness. Let her display her cosmetics proudly on her dressing table and let the subject of make-up be openly and sympathetically discussed. Tomorrow, I have a message for the girls.

ANSWER TO QUERY: Dear Miss Hunt: My eyelashes are a problem to me. They are very long, but they are straight and scant. Can I make them thicker or can I train them to curl? P. J.

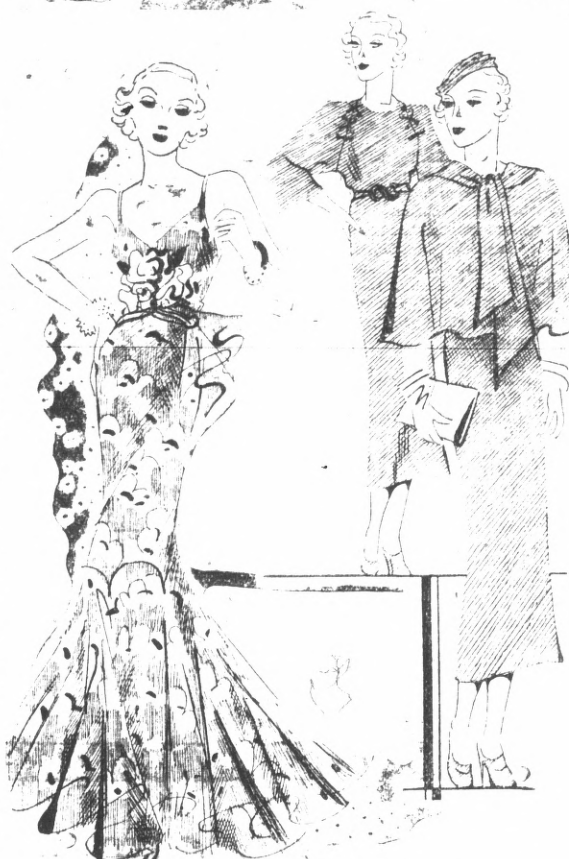

ANSWER: Training eyelashes might be accomplished by brushing them upward every night and their growth helped by regularly massaging a little petroleum jelly into their roots. The most effective thing that you can do for immediate results is to use mascara. First dampen your brush slightly and sweep it across the lash roots, brown if you are blonde, black if you are brunette—and apply to the lashes, stroking upward. While the mascara is drying, keep brushing the lashes upward over a mirror. They will dry this way and stay in place for several hours.

Grilled Vegetables

Practically any vegetable may be grilled with good result if the following instructions are followed. Slice the peeled vegetable first, dip in egg, then in crumbs and in egg again. Brush with melted butter, broil on a rack, first on one side and then on the other.

... SPEAKING OF STYLE ...

By IRENE VAIL

Copyright, 1933, by Fairchild.

These costumes are among those ordered recently by Mary Pickford for her personal wardrobe. Pink and gray printed organza with skirt fullness introduced in a deep flounce from the knees, and a cluster of silk roses at the bodice. A daytime costume in taupe woolen allies a simple one-piece frock, laced on the shoulders, with a graceful cape tied with scarf ends.

Tasty Dishes for Today

VARIED MENUS OF FISH FOOD

By JUDITH WILSON

MOONLIGHT NIGHTS may be welcomed by poets and sweethearts, but not by the fishermen who go fishing for mackerel. The men who go out for mackerel work only on dark or cloudy nights, when the silvery phosphorescence from the fish can guide the fishermen to their schools. When the moon plays on the water, it is impossible to see the glow from the mackerel, and therefore the fishermen have a "night of no work." This accounts for the frequent fluctuations in the price of these delicious fish.

Mackerel is equally good when broiled, poached or baked with a stuffing or served with fancy sauces. A simple method of serving is poaching. Remove the bones from two good sized filets, place them in a shallow saucepan and cover with two cups of boiling salted water. Add two teaspoons of lemon juice or vinegar and cook slowly for fifteen minutes. Drain and remove to a hot platter. Pour over this a drawn butter sauce prepared while the fish is cooking.

Baked Mackerel: You will like this recipe for baked mackerel if you are at all fond of seafood. Split a good sized mackerel, clean and remove the head and tail—or have the fish dealer do it for you. Wash quickly in cold water, wipe dry and place in a buttered dripping pan, sprinkle with salt and pepper and dot all over generously with butter. Pour over the fish two-thirds of a cup of milk and bake in a hot oven for twenty-five minutes. Dip eight small oysters in three tablespoons melted butter and one and one-half teaspoons of lemon juice. Cover the top of the baked mackerel with oysters just before serving. Sprinkle with a sifted bread crumbs and place under the broiler for three minutes to brown. Serve at once.

Crabmeat Salad: Prepare individual rings of tomato jelly and fill the centers with a small amount of crabmeat salad. For one cup of flaked crabmeat use one-half cup raw, grated carrots, one-half cup finely shredded lettuce, one-half cup mayonnaise, salt, pepper and just a grating of onion to season. Blend the ingredients well and garnish with a little additional mayonnaise, paprika and watercress. This is an attractive and filling salad served as the main course for a luncheon with bread and butter sandwiches, tea and lemon-meringue tarts.

Salmon Roll: When you want an inexpensive and attractive fish entrée for dinner try a salmon roll. Drain enough salmon to make two cups when freed from all skin and bone. Mash with a fork and mix with one cup soft bread crumbs, one cup table-spoons of grated onion and one tablespoon minced par-

New York — The success of transatlantic Victorian fashions in modern clothes has whipped up the courage or the disposition of designers to delve further into "Victory dress."

Chinese inspiration in new hat silhouettes, and in new silk motifs, weaves and ornaments, Japanese headbands, styles in hats, Persian prints in silk gowns, vivid colors in crepe that look like Mexico, military shapes, and accessories from the Twenties—all these are the most recent examples of the new spirit.

When we turn to Victorian fashions as the value that has been further flow of costume style, we considered the importance of color as well as the form and femininity of line.

Period Fashions: An instance of the renewed interest in period fashions, Norman Hartnell, London dress-maker who designs the wedding gowns of the majority of smart English society brides, has broken new ground with the one he is now making for the Hon. Evelyn Scott-Elles, daughter of Lord and Lady Howard de Walden. It is a 14th century dress inspired by Giotto, the early Italian painter, and stresses simplicity of line and freedom from unnecessary adornment.

Her hair is back but not too far, and the small cape as well. If you have the slightest excuse for carrying a little flower mull to match your dainty flower hat, don't fail to do it. There is no better place than a middle aisle for such a decorative note, so if you're going to walk down one, suggest to the bride that you carry a flower mull instead of a bouquet unless you're the bride, in which case you carry one.

Copyright, 1933, by Fairchild. This street costume is in black velvet with white fox trimming worn by a prominent actress in a recent Paris play.

Home-Making

By ALINE STERN

If you insist upon seasoning steaks and chops before broiling, pepper but do not salt. The seasoned cook prefers to use paprika instead of pepper, particularly on steaks, and to let the served guest season his meat with salt and pepper to suit his own taste. Salt draws the juices out, while paprika gives the steak a slightly charred, quality that suggests out-door cooking over a wood burning fire.

A useful and attractive gift for a bride shower or for a sick or convalescing friend is a new fed tray. It stands on legs and comes in various colors. It has a double tray, the upper one hinged on to the lower one which enables it to be served as a look support, too.

When broiling fish, open it with the flesh side up. To prevent its drying out in cooking, dot with butter. Turning is not necessary, the fish being flat. The oven should be hot for meats and fish that are to be broiled. Slow cooking extracts the juices and causes toughness.

You and Your Child

TRY TO CHEER MORBID CHILD

By JANE HERBERT GOWARD

CHILDREN sometimes express very morbid ideas. "I wish I could get sick or die," one youngster was heard to mutter. His mother was stunned. What a gloomy thought for a child to express! "Bobby," she asked, "how could he mean it?" "Why do you say that, Bobby?" she asked. He threw his hands out in a despairing gesture. "I didn't have to go to school."

A friend told me recently that as a child, whenever she was late for school or for dinner, she would hurry along wishing that some accident would befall her on the way. If she could not be on time, there was but one alternative which, appealed to her imagination. To have an excuse that would arouse pity in the teacher or parent, and a burning sense of shame for having blamed this poor unfortunate, guiltless child!

By nature children are not morbid. Each of these examples, it seems to me, shows instead, a tremendous wishfulness to live and be happy. Each child experienced despair with the realization that unpleasantness was in the offing. One saw illness or death as preferable to school, it being the only way out to his knowledge. The little girl, realizing her guilt, was quite logical in imagining that she might escape punishment if the sympathy of her parent or teacher were sufficient. "I'm sorry," she would say, "but I couldn't help it. I was late because of my mother's car accident. I was struck down by a bicycle on the way home to school."

It solves her problem neatly. It is a boon and comfort to a harassed mind. Meanwhile, however, she makes sure to pick her steps carefully to avoid any mishap. She is not fooling herself "really." She knows "it is just make-believe."

In the case of Bobby, his attitude toward school needs looking into. At the root of his dislike is a serious problem. He may not have prepared his lesson for the day satisfactorily, or at all. Or he may have received a low rating in an examination. I know of a youngster who developed a distaste for school because he could not master long division. He did not like to be "dumb" in school. After consulting his teacher, his mother found out why he overslept and dawdled mornings, and arranged for extra lessons after school. The youngster regained his self-respect shortly after, and an interest in school.

PROFILES For Today

By TALBOT LAKE

Spain Ousts the Church From Power . . . Woman Elected to Opera Board

THE pendulum of fate swings slowly over the world, first in one direction, then in another, making history all the while.

How funny that Premier Arana, leader of Spain, long considered the most firmly Roman Catholic country in the world, should have been instrumental in "nationalizing" church property and expelling 80,000 monks and nuns, who once supervised the religious education of 500,000 Spanish children. Church property valued at \$500,000,000 has been confiscated by the Spanish Republic. No longer will the church lead in the affairs of this nation. How unpredictable this is and how strange.

Back in the 13th, 14th and 15th centuries Spain was practically ruled by churchmen. History relates the many sporadic cases of violent measures against heretics, Jews and Mohammedans. As a matter of fact, when the word inquisition is mentioned, Spain immediately comes to mind. A combination of secular jealousy, national pride and religious bigotry led to the foundation of an essentially national inquisition, directed against local heretics in 1480 when Ferdinand and Isabella reigned.

The Spaniards were very quick to accept the inquisition to such an extent as to look upon heresy as a national scourge to be destroyed at all costs. They were much like the modern German Nazis under Herr Adolf Hitler. They too persecuted those suspected of making heretical speeches, and they too, censored books. The great scholar Pedro de Lerma, who after fifty years as a faculty dean in Paris returned to Spain as abbot of Compiut, was called upon in 1537 to reject eleven "Erasmian" propositions, and was forced to return to Paris to die because he refused to give up the doctrines of the man who then was the acknowledged leader of European thought.

Juan de Vergara and his brother were summoned before the Inquisition for a favor. Erasmus of his things, and retained several years before they were acquitted. Many others suffered a like or worse fate. And now Spain is a lay State. A Republic, and politicians rule over the country while priests, monks and nuns contemplate their fate.

FOR the first time in the history of the Metropolitan Opera House Company, a woman has been elected to its governing board. She is Mrs. August Belmont, once famous as Eleanor Robeson, actress.

Her interest in the Metropolitan goes back three decades, when after a performance in the old Empire theater in New York, the then Eleanor Robeson would slip across the street to the Metropolitan Opera House, not bothering to remove her make-up, and buy a ticket to hear Calve, Termini or Caruso sing. Mrs. Belmont's interest in the Metropolitan Opera House of America has never lapsed. Only recently, she led the drive to save the Metropolitan by raising a fund of \$300,000. She visited friends, she appeared on the stage of the Metropolitan, and elsewhere speaking in behalf of the fund required to save America's foremost musical organization. At the Opera Ball, which was the culminating event of the drive and which had as its setting the court of the Empress Eugenie in Paris in 1860, Mrs. Belmont portrayed the role of the Empress in the pageant.

To a social-climbing or snobbish Gower is Mrs. Belmont. Her interests have been far-flung and varied. Ever since her marriage to August Belmont in 1910, when she retired from an active career on the stage, she has occupied herself in many important public and social activities.

In 1923 she collaborated in the writing of a play. She has been a leading member of the Women's Organization for National Prohibition Reform. For three years she has worked hard and actively as chairman of the women's division of New York City's emergency unemployment relief drive. Most recently she has served as chairman of the Adopt-a-Family Committee.

She is the second wife of the late August Belmont, the noted financier and sportsman who died in 1924 following an operation for blood poisoning. Mr. Belmont was probably the greatest American private breeder of thoroughbred horses and is credited with having done more than anyone else to maintain the sport of kings. Belmont Park in Long Island was named after Mr. Belmont and among some of his horses were Man o' War, Tracery and Rock Sand. As chairman of the Jockey Club, the ruling turf body in America, the late August Belmont directed and engineered not only the growth of the sport but the breeding of racing thoroughbreds.

DON'T TAKE ANY CHANCES WHEN DRIVING A CAR

By MARIAN MAY'S MARTIN

SHOCKING automobile accidents are exactly too frequent. They are the result of just a moment's carelessness. The season upon which we are entering is the one which brings out the things on wheels, and for this reason there are greater dangers ahead.

It is, of course, the careless, irresponsible driver who does most of the damage, and escapes with the minimum amount of penalty, providing he has escaped with his life.

DRIVERS of old cars have little property loss to worry about, and so go helter-skelter, trusting to luck and to the wit and wisdom of a more responsible class. They make up a large majority of the dreaded Sunday driver class, and make the day anything but a day of rest, unless it may be eternal rest.

WOMEN seem to do the bulk of the driving in suburban communities and in what are open spaces that are left. Some of them drive with caution and the driving of the others is a caution. Don't be one of "those fool women drivers." Take a little pride in your performance and keep your mind on what you are doing. Nobody is such an experienced driver that she can afford to court danger. Taking unnecessary chances on the road is in the same category as rocking the boat—a very stupid procedure.

IT isn't much of a trick to learn to drive, if by driving one means the ability to make a car start, stop and go along under ideal conditions. But it is something of an achievement to keep a car under control under adverse circumstances, not to mention keeping one's mental processes, nerves and so on also under control.

ENCOUNTERING casual youths speeding, or crawling along either for a favor or indifference as to what matter, different as they may be, and doing a little preoccupied one-way driving is rather a strain on the motorist who try to follow the live-and-let-live formula. Love and gasoline is a combustible mixture as alcohol and gasoline. One is incapable of doing full justice to either the driving or the loveliness en route. Best far to do one thing at a time, and do it well.

THE danger—so often seen along the edge of a new road might be useful in the car itself, applying to the caddy young person who thinks that nestling as close to the driver as she possibly can is the ideal motor manner.

OLD DOBBIN used to jog along obligingly by himself when the situation seemed to call for independent action on his part, but motors are incapable of sympathetic understanding and so are unable to conform to emotional emergencies. They need to be controlled—that is, either the motor or the emotions—otherwise something is to crash headlong into a situation which is likely to turn one's style both as a motorist and as a great lover.

ACCORDING to the verdict from the rocking chair brigade, disappointed judge and jury, automobiles give romantic young things sentry too much freedom, anyway. If this be true, why then, risk life and limb in traffic when there are so many sequestered spots in which to pause for reflection, or what have you?

ALL the world loves a lover—but not in traffic.

THERE is one angle of the situation which is a pleasure to record, and that is, that the one-armed driver, whose so-called mind is elsewhere, is always of male persuasion—we have yet to encounter a woman driver whose right arm is otherwise engaged than in steering her car, unless she happens to be holding fast to a child too young to be on its own. Many a mother finds a leash an anxiety to prayer in a situation of that kind. This anchors the child, to her belt usually, and leaves her arm free, as both arms should be, for driving. Just how these youngsters manage to drive at all, hampered by a girl's arm around their neck and a girl's weight thrown against their shoulder, is something not even a traffic cop has been able to figure out.

SUCH a situation does not seem to argue very much for the attractiveness of the girl, anyway. It even implies that the thrill is gone—that is, unless the car's in the ditch.

A SMART YACHTING COSTUME

Shoestring lacing, the latest vogue for milady, are featured in this sailor suit of blue-crested white linen and navy. Confidential: The costume may be worn on Main Street as well as a main deck.

TUESDAY MORNING, JULY 4, 1933.

ADJOURNMENT OF ECONOMIC SESSION NEAR

(Continued from page 1)

told the economic conference.

He told in frank language his ideas of what the parley should seek to achieve.

"Let me be frank in saying the United States seeks the kind of a dollar which a generation hence will have the same purchasing and debt paying power as the dollar value we hope to attain in the near future, Mr. Roosevelt said.

"That objective means more to the good of nations than a fixed ratio for a month or two in terms of pound or franc.

"The conference was called to better and perhaps cure fundamental economic ills. It must not be diverted from that effort."

French Boycott

The French, who have led in the fight for currency stabilization, boycotted the afternoon private meeting of the monetary sub-committee, in retaliation against Roosevelt's telegram.

They secretly called a session of the gold bloc nations at once, and came out with a statement which amounts to a declaration of a currency war which, if it actually materializes, would make continuance of the economic conference futile, it was admitted.

Government Gives Full Explanation Of Beer Business

The Bureau of Internal Revenue desires that every dealer in malt liquors, wines and fermented fruit juices be given an opportunity to read the following statement, and to that end requests the cooperation of the press in publishing the entire article.

There appears to be considerable misunderstanding upon the part of dealers in malt liquors, wines and fermented fruit juices as to their liability for special tax in connection with the sale of their product. In order to remove any misunderstanding in regard to the matter, the following statement is submitted:

Purchasers of special tax stamps at the rate of \$29 per year, bearing the title "Retail Dealer in Fermented Liquors," may legally engage only in the sale, in less quantities than five gallons at one time, of fermented (malt) liquors of 3.2 percent alcoholic content by weight.

Every person who sells or offers for sale fermented malt liquors in quantities of not less than five gallons at one time, but who does not deal in wines and fermented fruit juices, is considered a "wholesale dealer" in malt

liquor and, as such, is required to purchase a special tax stamp at the rate of \$50 per year. Purchasers of special tax stamps, at the rate of \$25 per year, bearing the title "Retail Liquor Dealer" may engage not only in the sale of fermented (malt) liquors but also in the sale of 3.2 percent wines and fermented fruit juices, in less quantities than five gallons at one time, without incurring additional liability.

A wholesale liquor dealer shall pay \$100 per year. Such dealers may not only sell wines and fermented fruit juices containing not more than 3.2 percent of alcohol by weight, but may likewise sell fermented malt liquors of like alcoholic strength in quantities of not less than five gallons at one time, without incurring additional special tax liability.

A qualified wholesale dealer in malt liquor and a qualified whole sale liquor dealer can not sell in quantities of less than five gallons without incurring liability as a retail dealer, nor can a qualified retail liquor dealer, sell in quantities of five gallons or more at one time, without incurring liability for special tax as a wholesale dealer.

Special taxes are payable on a fiscal year basis beginning July 1 of each year, and every dealer in malt liquors or wines and fermented fruit juices is required to purchase a new special tax stamp effective July 1, 1933.

The purchase of a special tax stamp as retail or wholesale dealer in malt liquors or wines and fermented fruit juices does not authorize the purchaser thereof to transact such business in conflict with State laws, or authorize the sale of spirituous liquors for beverage purposes.

LUCKY FELLOW

YREKA, Calif., July 3.—Charles Noel found gold while digging a hole for a septic tank in his back yard. He panned enough gold to pay for the tank and its installation.

U.S. WOMAN IN BATH SUIT WAR

NICE, France, July 3.—UP—Beach police at the fashionable coastal resorts, launching a campaign against too revealing bathing suits, charged today that American women set a bad example for the natives.

Mrs. Billy Arnold, wife of the American jazz band leader, was arrested at Juan Les Pins and hustled to a hotel wrapped in a policeman's cloak.

When she dressed she was served with a court summons.

Mrs. Gordon McAlpine Pyle, of New York, her companion, was warned.

"American women on their way to cocktail parties, attired in so-called bathing suits, are the worst offenders and are giving the Riviera a bad name," officials said.

Fly 'Em Cowboy, Airplane Rodeo!

LAKEVIEW, Ore., July 3.—Rounding up of wild mustangs by airplane was conducted with unusual success in this area recently by Charles Hahn, local aviator.

Heretofore, the wild horses had evaded buckaroos before they could be driven into a corral.

The airplane was used to scare the mustangs into a band, then drive them to the waiting buckaroos, up some canyon.

KIDNAPERS OF BARBER JAKE ASK \$75,000

CHICAGO, July 3.—The sum of \$75,000 apparently has been fixed as the price for the release of John Factor, international speculator, and one-time Chicago barber, who is being held by kidnapers. The payment was demanded today.

This was revealed by Jerome Factor, his 19 year old son, who said he had received a telephone call which presumably came from his father's abductors, demanding the payment of the money in small bills.

Young Factor said that he believed the call, which came last night, was not a hoax, but that he did not know where he could raise \$75,000.

"The amount," he said, "will have to be considerably less. I wish the kidnapers would know that there's no use talking to me. Neither my mother nor I have access to my dad's securities even if it could be raised."

Hides Identity

Young Factor, who was a kidnap victim himself last spring, but who was released unharmed, said that he attempted to find out the identity of the person who telephoned him, but that the caller—a man—hung up the receiver.

The boy was asked if his step-mother, the former Rella Cohen, Factor's present wife, could raise the ransom money, but he said he did not know.

Factor was abducted by a gang of armed men as he left an outlying roadhouse early Saturday.

Richmond Girl Has Chance to Be Fete Queen

Some Richmond girl is to be given the opportunity to be "Miss Democracy" or queen of a big county-wide outing to be held at La Honda on September 3, by the Democratic Progressive club.

Leaders of the group expect to make the picnic the largest affair ever held in Contra Costa County, and elaborate plans are being worked out by committee chairman from nine towns in the county to assure the success of the picnic.

Efforts are being made to secure Senator William Gibbs McAdoo as speaker for the occasion and prominent democratic leaders from all over Northern California will be guests of the Contra Costa Progressive Democratic club.

Tentative plans for contests in boxing, baseball, horseshoe pitching, swimming, racing and other events were presented to the committee meeting by Joe Lonzo, of Rodeo, chairman of the contest committee.

Many concessions are planned for the picnic to attract visitors and make their outing a pleasant and memorable affair.

Fishermen Saved From Erie Shore

CEDAR POINT, O., July 3.—UP—Coast guardsmen late today saved ten chilled and hungry fishermen from the prospect of spending a second night marooned on a wave swept lighthouse jetty a mile from the Lake Erie shore.

Braving mountainous waves to bring a small boat near the rocky jetty, the Coast Guard succeeded in taking the men, one by one, from the tiny abandoned lighthouse where they had been stranded since Sunday afternoon.

Young Boxer Dies Following Fight

SAN FRANCISCO, July 3.—UP—Benny Duran, 18 year old boxer of Pratt, Kans., died here today apparently from injuries received when he was knocked out in Reno Nev., June 28 by Johnny Kunch, Oakland 130-pounder.

Police started an investigation after questioning Ted Martinus, friend of Duran, who said the lad suffered headaches after his knockout. Duran had a fractured skull.

A. A. A. CONTEST BOARD FINDS STANDARD MILEAGE UNSURPASSED

Better 420 laps at night-time—but the A. A. A. Contest Board says accuracy and not comfort comes first in mileage tests. Of the 7 gasolines tested the Board's certification of "Unsurpassed" was given to Standard Gasoline.

Frank Scofield, official driver for mileage tests, whose speed and "grooving" was so close that time variations between mile-laps never exceeded one-fifth of one second.

El Cerrito Moves To Help State in Improving Avenue

On the recommendation of City Engineer H. D. Chapman the council of El Cerrito at their meeting Monday night approved the plan outlined by Chapman to the State Highway Commission for the improvement of San Pablo avenue.

The plan under consideration by the State Highway Commission is a portion of the allotment of the Federal government under the National Industrial Recovery Act.

Are Approved

The recommendations approved were:

1.—The paving of the entire space now occupied by the Street Railway company (contingent of course on the removal of the tracks) This improvement to consist of a 4 in. rock base and a 7 in. paving of 5 in. of asphalt concrete base and a 2 in. wearing surface.

2.—The paving, guttering and curbing of the now unpaved portion of San Pablo avenue, lying adjacent to Richmond.

3.—The widening and paving of a 5 ft. strip on the east side between Moser and Schmidt lanes. This means a curb set back of 5 feet and a property line set back of at least 5 feet for sidewalk purposes.

4.—A 10 foot widening and paving on the east side from Blake to Cutting. This would require a setting back of the curb only.

5.—A 4 foot widening on the east side from Cutting boulevard to the Santa Fe railway crossing. This would require only the setting back of the curb, which will then conform with the Richmond curb north of the tracks.

6.—A 4 foot widening on the west side from a point 250 feet north of Blake street to the Santa Fe track. This will require only a curb set back and the

Leaves Given

Fire Chief O. A. Burnett was granted a two week's vacation and a two weeks leave of absence starting July 15.

A two weeks vacation starting July 17 was also granted Chief of Police, R. R. Cheek.

Special Officer Ed Smith was appointed to act as relief man in the police department during the vacation period at a salary of \$5.00 per day.

Printing Bids

First reading of an ordinance fixing the time for calling for bids for the legal printing of the city of El Cerrito was passed by the council.

Dog Track Censored

City Clerk Fred J. Prosser was instructed to write a letter to the Wembley Amusement company instructing them to use the special officers on duty at the dog track for police duty only.

This action was taken by the council on the recommendation of Chief of Police R. R. Cheek who stated that the dog track management was using the special officers as spotters at the option booths instead of protection of the public.

Beer Permits

Off sale beer permit was granted the Totem Pole Auto Camp

RIVER DANCE BOWL BURNS IN BIG FIRE

GUERNEVILLE, July 3.—Fire, believed to have been caused by fireworks, last night swept half of Guerneville Park, famous Russian river resort, routing more than 1000 dancers from the Redwood Bowl ballroom and causing damage estimated at more than \$20,000.

The blaze was discovered in the ballroom during the last dance of the night program.

The dancers scurried from the floor and a moment later the structure was a huge bonfire, lighting the sky for miles along the river.

Fully 2000 vacationists were alerted to the scene as volunteers and fire forces from Monte Rio, Guerneville, Rio Nida and other nearby resorts battled the flames.

A score of vacationing San Francisco firemen joined in the fight. Surrounding trees became torches and the entire region of summer homes was threatened for a time.

Before the flames were finally halted the dance hall, a bowling alley, pool room, soft drink parlor, bicycle shop and barber shop had been destroyed.

The postoffice, was saved after much matter and equipment had been hastily removed.

Officials said the fire started shortly before 11 o'clock at the creek behind the dance hall, and spread rapidly, aided by a breeze from the water. Investigators said the blaze probably was caused by fireworks.

On sale permits were granted to Bills Club, Mission Inn and the Pepper Pot.

Soft drink permits were also granted to the Farmers Produce Market, Mission Inn and the Pepper Pot.

PROPP DIVORCE

MARTINEZ, July 3.—Mrs. Mollie Propp was today granted an interlocutory decree of divorce from Fred Propp by Judge Thomas D. Johnston. She charged cruelty.

WAKE UP YOUR LIVER BILE— WITHOUT CALOMEL

And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sour and sick and the world looks gray, don't swallow a lot of pills, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.

For they can't do it. They only move the bowels and make movement don't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily.

If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach. You have a thick, bad taste and your breath is foul, and often breaks out in itchy blotches on your face and neck.

It takes those good, old CARTER'S LITTLE LIVER PILLS to get those two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely.

It's don't take too long. Ask for Carter's Little Liver Pills on the red label. Remotest corner drug store. 50c and all stores. © 1931 C. M. Co.

To Business and Professional people of Richmond

We believe that we are particularly well equipped to give satisfactory service to the individual problems of many local business firms, because:

- 1.—First-hand knowledge of local business conditions has been acquired through many years' participation in local affairs by our officers.
- 2.—Our resources and attention are devoted exclusively to the banking needs of Richmond.
- 3.—Officers have full authority and responsibility to make decisions and to deal with clients on the basis of local business needs.
